Let's try the Excellion link. Send it to me with instructions on accessing and I'll forward it.

Isaac likes to use it – it's a link that sends you right to the individual document – sort of like an ftp but its just the individual document. Mindy says that you have had difficulty accessing it in the past. Is there anyway we could post to the Whiting EPAOSC.net site? Someone here would need exclusive rights.

I could post the video on the sscg site as public – all other documents posted on there are “private or exclusive”

http://www.epaossc.org/site/doc_list.aspx?site_id=7539

Ralph – Had to post it on the SSCG website as we can't post to the EPA Enbridge Oil Spill Response website.

Subject: Submerged Oil Assessment info

Ralph – Attached is the Poling SOP, a photo of the graduated pole with disc used for poling and a couple photos of poling in the field. I will send you a video of poling via a separate email (trying to get it down to a manageable size. Let me know what else you may think of.

Thanks

Dan Capone
